

When a vision comes true:

The world's most modern tissue pilot plant

ANDRITZ is proud to present the world's most modern Tissue Innovation and Application Center: PrimeLineTIAC. The center at the ANDRITZ headquarter in Graz, Austria, features unique technology and offers

opportunities to test and develop the tissue solutions of tomorrow. In cooperation with our key technical partners — Albany International Corp., Danfoss Drives, Fibria, IBS Paper Performance Group, Nash, Södra,

Solenis — we made the impossible possible and developed a tissue machine that is unique worldwide and that can produce conventional, textured, and structured (TAD) tissue. Contact us today: PrimeLineTIAC@andritz.com

The pilot plant is sponsored by FFG as part of R&D infrastructure promotion.
